15 APR 2014

COMMANDING GENERAL'S POLICY LETTER 13-14

From: Commanding General, Marine Corps Installations East-
Marine Corps Base, Camp Lejeune
To: Distribution List
Subj: POLICY GUIDANCE CONCERNING PERMISSIBLE OPERATING DISTANCE
FOR GENERAL SERVICES ADMINISTRATION/MARINE CORPS-OWNED
COMMERCIAL VEHICLES
Ref: (a) DoD 4500.36-R of 16 March 2007
(b) MCO 11240.106B

1. In accordance with reference (a), the Permissible Operating Distance (POD) established for an installation should be sufficient to support normal operations. Reference (b) states that Garrison Mobile Equipment (GME) Fleet Managers will make every effort to use commercial transportation outside the POD and GME inside the POD.
2. Cancellation. CO Policy Letter 04-07 of 14 Aug 07.
3. Historical data indicates that a POD of 150 miles would be adequate to support normal operations around the Camp Lejeune area and would also be more in line with the current Department of Defense and Marine Corps Orders governing the proper and efficient use of GME. I recognize that there may be exceptions to this policy, such as the transportation of prisoners to Norfolk, Virginia. All commands, organizations, and tenant activities are to implement the 150 mile POD requirement when utilizing government vehicles.
4. Requests to exceed the POD should be supported by emergency, regulatory or statutory requirements and forwarded to the Fleet Manager of Marine Corps Installations East-Marine Corps Base, Camp Lejeune. Point of contact is Fleet Manager at (910)451-9188.

R. F. CASTELLVI
